

8. The months of the year

A second, a minute, an hour, a day,
a week, a month, a year.

The months of the year are:

January, January! February, February! March, March! April, April!
May, May! June, June! July, July! August, August!
September, September! October, October! November, November!
December.

Twelve months and a year goes by. My oh my!

The months of the year are:

January, January! February, February! March, March! April, April!
May, May! June, June! July, July! August, August!
September, September! October, October! November, November!
December.

Winter, spring, summer, and fall.

Can you remember it all ?

A second, a minute, an hour, a day,
a week, a month, a year.

Tick-tock. Tick-tock.

Time flies.

Tick-tock. Tick-tock.

Time flies.
